

2. Privacy Notice (Aviso de Privacidad)

In strict compliance with the Personal Data Protection Law (LPDP) of El Salvador and the policies of the State Cybersecurity Agency (ACE), the Privacy Notice is a mandatory document that must be presented to the data subject before or at the moment of capturing any personal data.

- Time of Presentation: EXCHANGE TECHNOLOGIES, S.A. DE C.V. integrates this notice into the initial registration screen of its web portal and mobile applications, ensuring that the user cannot enter information into the capture forms without having first received and accepted this declaration.
- Legitimation through Consent: The notice transparently informs that the main legal basis for the processing of the data is the free, informed, and unequivocal consent granted by the data subject by checking the box for technical acceptance of the platform's policies.
- Mandatory Synthesized Content: Unlike the detailed Privacy Policy, the Notice must concisely contain:
 - o The clear identity of the data controller Exchange Technologies.
 - o The specific and unequivocal purpose of the data collection (identity verification for KYC, legal fraud-prevention compliance, and processing of payment orders).
 - o The main recipients with whom the information will be shared (payment-gateway technology partners and regulated sub-custodians).
 - o The express mention of the user's right to exercise their ARCO-POL rights (Access, Rectification, Cancellation, Opposition, Portability, and Limitation) and the contact channel for that purpose.
